

It might look like basketball, but take a closer look. Didn't that player just floor an opposing player with a well telegraphed right hook?...And what about that guy over there?...Isn't he pulling down his opponent's shorts? This isn't just basketball. It's basketbrawl. Sure, you'll need to show off your basic B-ball skills as well...but this game is far more challenging and exciting than just that. So come on, lace up...grab a ball...and hit the court with Tyrone, Vinnie and the rest of the ARCH RIVALS. Nintendo

It won't take you long to figure out that this is not "finely tuned" professional basketball we're talking about here. Yes, ARCH RIVALS has highly skilled teams in colorful uniforms...and yes, it even has "emotional" coaches and bouncy, energetic cheerleaders. Oh, and let's not forget those basic "fine points" of the game like shooting, passing, rebounding and all-round ball control. It's got all of that as well, but

You'll never see a player at the foul line...since the ref probably never sees the players at all! His eyesight is so bad that when he runs up

what it

doesn't

have is fouls.

and down the court, all he really
does is get in the way and trip
up the players. Actually, this guy
wouldn't know an uppercut
from a pick and roll if it

hit him on the chin (which it does, occasionally).

No, this certainly isn't professional basketball... but who needs all of those silly rules and regulations anyhow? This is much more fun!

So let's get the brawl rolling!

PLAYER SELECTION

Each ARCH RIVALS team is made up of 2 players. You control 1 and the computer controls your teammate.

There are 8 different players to choose from for each team. They all offer different skills and abilities.

To select the player you want to control, press the cross-key arrows until the selection arrow points to that player. Then press START. In a 2-player game, player #1 selects from the team on the left and player #2 from the team on the right.

PLAYERS' PROFILES

TYRONE

When this guy
"blocks the lane,"
he really "blocks
the lane." No one
gets by Tyrone
without first
receiving an

elbow or fist in the face.

VINNIE

They don't come much better than Vinnie. He's got great ballhandling abilities and he's a real team player.

Sounds too good to be true!

HAMMER

This guy can nail them from anywhere on the court, but you take a pounding when you challenge

him under the boards.

MOOSE

He might not be the youngest or quickest guy on the floor, but sometimes experience makes all the difference

Don't forget, he led his team in scoring 3 seasons in a row.

LEWIS

Mr. Technique. Mr. Smooth. Mr. Moves. His mother is the only one who still calls him "Lewis." (Boy, does he hate when she does.)

BLADE

The fans love him... And so do the cheerleaders. He's the original shotmaker/heartbreaker. Not a bad guy to have

as your teammate – especially when his admirers are too many for him to handle alone.

MOHAWK

This maniac doesn't care who he has to run over — as long as he runs to the hoop. Don't mess with his hair, though, or he'll hand you

his own type of technical foul.

REGGIE

He was the All-Stars' All-Star at one time. But that was 10 years ago. He still has the "touch" though and could prob-

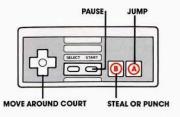

ably sink 'em with his eyes closed... and it sometimes looks like he tries.

THE CONTROLS

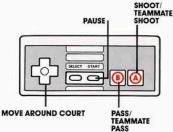

Note: The following information is also available on-screen by pressing the A BUTTON when in the SELECT NUMBER OF PLAYERS screen. However, if you need to refresh your memory while

THE GAME

An ARCH RIVALS game consists of 4 quarters, each 3 minutes in length.

Between quarters (but not at the half) you'll be treated to airings of "COACHES CORNER" – sponsored by British Knights athletic footwear. Pay attention to the tips given during these features.

During half-time, you'll enjoy a heart-pounding performance by the ARCH RIVALS super-talented cheerleading squad. It may be a quick show... but they certainly give it their all.

At the end of the game you will have a chance to view your actual post-game statistics and see how well you really played.

Remember: winning isn't everything. Self-improvement is a big part of what makes all the ARCH RIVALS better people... OK. OK. Let's cut the baloney. Winning is everything for the ARCH RIVALS. But statistics are still a cool feature.

WHICH WAY DID HE GO?

When one of your players is positioned off the screen, an arrow will appear showing where he is located.

Learn to pay attention to these arrows. They are a big help in a fast-paced fast break style of game.

TIPS FROM THE COACH

- Remember, in ARCH RIVALS there is really only 1 rule and that is: there are no rules. Just do whatever it takes to win.
- Follow the control movements given to you in the instructions.
 Then experiment on your own.
 You might surprise yourself (and your opponent) with what you come up with. It's all in hitting the right combination of buttons at the right time.
- Fast breaks could break the game wide open. When your teammate has the ball, try running off the screen, towards the hoop, and call for a pass. Then check out what happens.

- Don't be afraid to put up a desperation shot every now and then. What might seem impossible in real life is actually quite possible in the world of ARCH RIVALS.
- Play tough "D." Whether you choose to play a zone or manto-man, stay on top of your opponent. Stay in his face and force him to put up poor shots.
